# Nupur Joshi
# Spring 2023

# Konektio

## What I Worked On

- Finishing up a MVP for the company's Unit Testing Framework for their SAAS Product
- Applying the completed Unit Testing Framework to a feauture in the company's product

*"The open concept reflected how the startup encourages a collaborative culture rather than having bigger closed-off offices for higher-ups."*

## Skills I Acquired

- Debugging code efficiently
- Software Development in a professional setting
- IoT Knowledge
- Working with REST APIs

*"Throughout my time working at Konektio, I have learned a great deal about myself, working in a professional setting remotely, and gained a lot of useful software development skills."*
